

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

PREFACE.

(BY PROFESSOR SKEAT.)

THE present work is intended to meet, in some measure, the requirements of those who wish to make some study of Middle-English, and who find a difficulty in obtaining such assistance as will enable them to find out the meanings and etymologies of the words most essential to their purpose.

The best Middle-English Dictionary, that by Dr. Mätzner of Berlin, has only reached the end of the letter H; and it is probable that it will not be completed for many years. The only Middle-English Dictionary that has been carried on to the end of the alphabet is that by the late Dr. Stratmann, of Krefeld. This is a valuable work, and is indispensable for the more advanced student. However, the present work will still supply a deficiency, as it differs from Stratmann's Dictionary in many particulars. We have chosen as our Main Words, where possible, the most typical of the forms or spellings of the period of Chaucer and Piers Plowman; in Stratmann, on the other hand, the form chosen as Main Word is generally the oldest form in which it appears, frequently one of the twelfth century. Moreover, with regard to authorities, we refer in the case of the great majority of our forms to a few, cheap, easily accessible works, whereas Stratmann's authorities are mainly the numerous and expensive publications of the Early English Text Society. Lastly, we have paid special attention to the French element in Middle-English, whereas Stratmann is somewhat deficient in respect of words of French origin¹. The book which has generally been found of most assistance to the learner is probably Halliwell's Dictionary of Archaic and Provincial Words; but this is not specially confined to the Middle-English period, and the plan of it differs in several respects from that of the present work.

The scope of this volume will be best understood by an explanation of

¹ A new and thoroughly revised edition of Stratmann's Dictionary is being prepared by Mr. Henry Bradley, for the Delegates of the Clarendon Press.

the circumstances that gave rise to it. Some useful and comparatively inexpensive volumes illustrative of the Middle-English period have been issued by the Clarendon Press; all of which are furnished with glossaries, explaining all the important words, with exact references to the passages wherein the words occur. In particular, the three useful hand-books containing Specimens of English (from 1150 down to 1580) together supply no less than sixty-seven characteristic extracts from the most important literary monuments of this period; and the three glossaries to these books together fill more than 370 pages of closely-printed type in double columns. The idea suggested itself that it would be highly desirable to bring the very useful information thus already collected *under one alphabet*, and this has now been effected. At the same time, a reference has in every case been carefully given to the *particular* Glossarial Index which registers each form here cited, so that it is perfectly easy for any one who consults our book to refer, not merely to the particular Index thus noted, but to the references given in that Index; and so, by means of such references, to find every passage referred to, with its proper context. Moreover the student only requires, for this purpose, a small array of the text-books in the Clarendon Press Series, instead of a more or less complete set of editions of Middle-English texts, the possession of which necessitates a considerable outlay of money. By this plan, so great a *compression* of information has been achieved, that a large number of the articles give a summary such as can be readily expanded to a considerable length, by the exercise of a very little trouble; and thus the work is practically as full of material as if it had been three or four times its present size. A couple of examples will shew what this really means.

At p. 26 is the following entry:—

‘**Bi-hestē**, *sb.* promise, S, S₂, C₂, P; **byhestē**, S₂; **behestē**, S₂; **byhest**, S₂; **bihe**, S; **biheest**, W; **bihe**, *pl.*, S.—AS. *be-hēts*.’

By referring to the respective indexes here cited, such as S (= Glossary to Specimens of English, Part I) and the like, we easily expand this article into the following:—

‘**Bi-hestē**, *sb.* promise, S (9. 19); S₂ (1 *a.* 184); C₂ (B 37, 41, 42, F 698); P (3. 126); **byhestē**, S₂ (18 *b.* 25); **behestē**, S₂ (14 *a.* 3); **byhest**, S₂ (12. 57, 18 *b.* 9, [where it may also be explained by *grani*]); **bihe**, S (where it is used as a plural); **biheest**, W (promise, command, Lk. xxiv. 49, Rom. iv. 13; *pl.* **biheestis**, Heb. xi. 13); **bihe**, S (*pl.* behests, promises, 4 *d.* 55).—AS. *be-hēts*.’

In order to exhibit the full meaning of this—which requires no further

explanation to those who have in hand the books denoted by S, S₂, &c.-- it would be necessary to print the article at considerable length, as follows:—

‘**Biheste**, *sb.* promise; “dusi *biheste*,” a foolish promise, (extract from) Ancren Riwe, l. 19; “and wel lute wule hulde þe *biheste* þat he nom,” (extract from) Robert of Gloucester, l. 184; “holdeth your *biheste*,” Chaucer, Introd. to Man of Law’s Prologue, l. 37; “*biheste* is dette,” same, l. 41; “al my *biheste*,” same, l. 42; “or breken his *biheste*,” Chaucer, sequel to Squieres Tale, l. 698; “þorw fals *biheste*,” Piers Plowman, Text B, Pass. iii, l. 126; “to vol-vulle (fulfil) þat *byheste*,” Trevisa (extract from), lib. vi. cap. 29, l. 25; “the lond of promysioun, or of *beheste*,” Prol. to Mandeville’s Travels, l. 3; “wiþ fair *by-hest*,” William and the Werwolf, l. 57; “þe *byhest* (promise, or grant) of opere menne kyngdom,” Trevisa, lib. vi. cap. 29, l. 9; “y schal sende the *biheest* of my fadir in-to þou,” Wyclif, Luke xxiv. 49; “not bi the lawe is *biheest* to Abraham,” Wycl. Rom. iv. 13; “whanne the *biheestis* weren not takun,” Wycl. Heb. xi. 13; “longenge to godes *bihese*,” Old Eng. Homilies, Dominica iv. post Pascha, l. 55.’

We thus obtain fifteen excellent examples of the use of this word, with the full context and an exact reference (easily verified) in every case. And, in the above instance, all the quotations lie within the compass of the eleven texts in the Clarendon Press Series denoted, respectively, by S, S₂, S₃, C, C₂, C₃, W, W₂, P, H, and G.

The original design was to make use of these text-books only; but it was so easy to extend it by including examples to be obtained from other Glossaries and Dictionaries, that a considerable selection of interesting words was added from these, mainly for the sake of illustrating the words in the Clarendon text-books. These illustrative words can be fully or partially verified by those who happen to possess all or some of the works cited, or they can safely be taken on trust, as really occurring there, any mistake being due to such authority.

A second example will make this clearer. ‘**Brant**, *adj.* steep, high, MD, HD; **brent**, JD; **brentest**, *superl.* S₂.—AS. *brant* (*bront*); cp. Swed. *brant*, Icel. *brattr*.’

Omitting the etymology, the above information is given in two short lines. Those who possess the ‘Specimens of English’ will easily find the example of the *superl.* *brentest*. By consulting Mätzner’s, Halliwell’s, and Jamieson’s Dictionaries, further information can be obtained, and the full article will appear as follows:—

‘**Brant**, *adj.* steep, high, MD [**brant**, **brent**, *adj.* ags. *brand*, arduus,

altus, altn. *brattr*, altschw. *branter*, schw. *brant*, *bratt*, dän. *brat*, sch. *brent*, nordengl. Diall. *brant*: cf. "*brant*, steepe," Manipulus Vocabulorum, p. 25: steil, hoch.—"Apon the bald Bucifelon *brant* up he sittes," King Alexander, ed. Stevenson, p. 124; "Thir mountaynes ware als *brant* upritze as thay had bene walles," MS. quoted in Halliwell's Dict., p. 206; "Hy3e bonkkes & *brent*," Gawain and the Grene Knight, l. 2165; "Bowed to þe hy3 bonk þer *brentest* hit wern," Alliterative Poems, ed. Morris, Poem B, l. 379; HD [*brant*, steep, *North*: "Brant against Flodden Hill," explained by Nares from Ascham, "up the steep side;" cf. Brit. Bibl. i. 132, same as *brandy*?—"And thane thay com tille wonder heghe mountaynes, and it semed as the toppes had towched the firmament; and thir mountaynes were als *brant* upritze as thay had bene walles, so that ther was na clymbyng upon thame," Life of Alexander, MS. Lincoln, fol. 38]; JD [*brent*, *adj.* high, straight, upright; "My bak, that sumtyme *brent* hes bene, Now cruikis lyk ane camok tre," Maitland Poems, p. 193; followed by a discussion extending to more than 160 lines of small print, which we forbear to quote]; *brentest*, *superl.* Sz. 13. 379 ["And bowed to þe hy3 bonk þer *brentest* hit were (MS. wern)," Allit. Poems, l. 379; already cited in Mätzner, above].

The work, in fact, contains a very large collection of words, in many variant forms, appearing in English literature and in Glossaries between A.D. 1150 and A.D. 1580. The glossaries in Sz, S3 (Specimens of English, 1298–1393, and 1394–1579) have furnished a considerable number of words belonging to the Scottish dialect, which most dictionaries (excepting of course that of Jamieson) omit.

The words are so arranged that even the beginner will, in general, easily find what he wants. We have included in one article, together with the Main Word, all the variant spellings of the glossaries, as well as the etymological information. We have also given in alphabetical order numerous cross-references to facilitate the finding of most of the variant forms, and to connect them with the Main Word. In this way, the arrangement is at once etymological and alphabetical—adapted to the needs of the student of the language and of the student of the literature.

The meanings of the words are given in modern English, directly after the Main Word. The variant forms, as given in their alphabetical position, are frequently also explained, thus saving (in such cases) the trouble of a cross-reference, if the meaning of the word is alone required.

An attempt is made in most cases to give the etymology, so far at least as to shew the immediate source of the Middle-English word. Especial pains have been taken with the words of French origin, which

form so large a portion of the vocabulary of the Middle-English period. In many cases the AF (Anglo-French) forms are cited, from my list of English Words found in Anglo-French, as published for the Philological Society in 1882.

The student of English who wishes to trace back the history of a word still in use can, in general, find the Middle-English form in Skeat's Etymological Dictionary, and will then be able to consult the present work in order to obtain further instances of its early use.

The relative share of the authors in the preparation of this work is easily explained. The whole of it in its present form (with the exception of the letter N) was compiled, prepared, and written out for press by Mr. Mayhew. The original plan was, however, my own; and I began by writing out the letter N (since augmented) by way of experiment and model. It will thus be seen that Mr. Mayhew's share of the work has been incomparably the larger, involving all that is most laborious. On the other hand, I may claim that much of the labour was mine also, at a much earlier stage, as having originally compiled or revised the glossaries marked S₂, S₃, C₂, C₃, W, W₂, P, and G, as well as the very full glossarial indexes cited as B, PP, and WA, and the dictionary cited as SkD. The important glossary marked S was, however, originally the work of Dr. Morris (since re-written by Mr. Mayhew), and may, in a sense, be said to be the back-bone of the whole, from its supplying a very large number of the most curious and important early forms.

The material used has been carefully revised by both authors, so that they must be held to be jointly responsible for the final form in which the whole is now offered to the public.

NOTE ON THE PHONOLOGY OF MIDDLE-ENGLISH.

One great difficulty in finding a Middle-English word in this, or any other, Dictionary is due to the frequent variation of the symbols denoting the vowel-sounds. Throughout the whole of the period to which the work relates the symbols *i* and *y*, in particular, are constantly interchanged, whether they stand alone, or form parts of diphthongs. Consequently, words which are spelt with one of these symbols in a given text must frequently be looked for as if spelt with the other; i.e. the pairs of symbols *i* and *y*, *ai* and *ay*, *ei* and *ey*, *oi* and *oy*, *ui* and *uy*, must be looked upon as likely to be used indifferently, one for the other. For further information, the student should consult the remarks upon Phonology in the Specimens of English (1150 to 1300), 2nd ed., p. xxv. For those who

have not time or opportunity to do this, a few brief notes may perhaps suffice.

The following symbols are frequently confused, or are employed as equivalent to each other because they result from the same sound in the Oldest English or in Anglo-French:—

i, y;—*ai, ay*;—*ei, ey*;—*oi, oy*;—*ui, uy*.

a, o;—*a, æ, e, ea*;—*e, eo, ie*;—*o, u, ou*;—(all originally short).

a, æ, ea, e, ee;—*e, ee, eo, ie*;—*o, oo, oa*;—*u, ou, ui*;—(all long).

These are the most usual interchanges of symbols, and will commonly suffice for practical purposes, in cases where the cross-references fail.

→ If the word be not found after such substitutions have been allowed for, it may be taken for granted that the Dictionary does not contain it. As a fact, the Dictionary only contains a considerable number of such words as are most common, or (for some special reason) deserve notice; and it is at once conceded that it is but a small hand-book, which does not pretend to exhibit in all its fulness the extraordinarily copious vocabulary of our language at an important period of its history. The student wishing for complete information will find (in course of time) that the New English Dictionary which is being brought out by the Clarendon Press will contain all words found in our literature since the year 1100.

Of course variations in the vowel-sounds are also introduced, in the case of strong verbs, by the usual 'gradation' due to their method of conjugation. To meet this difficulty in some measure, numerous (but not exhaustive) cross-references have been introduced, as when, e.g. '**Bar**, bare' is given, with a cross-reference to **Beren**. Further help in this respect is to be had from the table of 183 strong verbs given at pp. lxix–lxxxi of the Preface to Part I of the Specimens of English (2nd edition); see, in particular, the alphabetical index to the same, at pp. lxxxi, lxxxii. The same Preface further contains some account of the three principal Middle-English dialects (p. xl), and Outlines of the Grammar (p. xlv). It also explains the meaning of the symbols *p*, *ð* (both used for *th*), *ȝ* (used for *y* initially, *gh* medially, and *gh* or *z* finally), with other necessary information.

THE CLARENDON PRESS GLOSSARIES.

This work gives *all* the words and *every* form contained in the glossaries to eleven publications in the Clarendon Press Series, as below:—

S.—SPECIMENS OF EARLY ENGLISH, ed. Morris, Part I: from A.D. 1150 to A.D. 1300.

This book contains extracts from:—**1.** Old English Homilies, ed. Morris, E. E. T. S. 1867-8, pp. 230-241; **2.** The Saxon Chronicle, A.D. 1137, 1138, 1140, 1154; **3.** Old Eng. Homilies, ed. Morris, First Series, pp. 40-53; **4.** The same, Second Series, pp. 89-109; **5.** The Ormulum, ed. White, ll. 962-1719, pp. 31-57; **6.** Layamon's Brut, ed. Madden, ll. 13785-14387 [*add 13784 to the number of the line in the reference*]; **7.** Sawles Warde, from Old Eng. Homilies, ed. Morris, First Series, pp. 245-249, 259-267; **8.** St. Juliana, ed. Cockayne and Brock; **9.** The Ancren Riwe, ed. Morton, pp. 208-216, 416-430; **10.** The Wooing of our Lord, from Old Eng. Homilies, ed. Morris, ll. 11373-11791 [*add 11372 to the number in the reference*]; **8.** Eng. Metrical Homilies, ed. Small (Second Sunday in Advent, Third Sunday after the Octave of Epiphany); **9.** The Avenbite of Inwyte, ed. Morris, pp. 263-9, and p. 262; **10.** Hampole's Prick of Conscience, ll. 432-9, 464-509, 528-555, 662-707, 728-829, 1211-1292, 1412-1473, 1818-29, 1836-51, 1884-1929, 2216-2233, 2300-11, 2334-55, 2364-73, 7813-24; **11.** Minot's Songs, Nos. 3, 4, 7; **12.** William of Palerne, ed. Skeat, ll. 3-381; **13.** Alliterative Poems, ed. Morris, Poem B, ll. 235-544, 947-972, 1009-1051; **14.** Mandeville's Travels, Prologue, part of Chap. 12, and Chap. 26; **15.** Piers the Plowman, A-text, Prologue, Passus 1, part of Pass. 2, Pass. 3, Pass. 5, parts of Pass. 6 and 7; **16.** Barbour's Bruce, ed. Skeat, Book VII. ll. 1-230, 400-487; **17.** Wyclif's translation of St. Mark's Gospel, Chapters 1-6;

Hereford's version of the Psalms, Ps. 14 (15), 23 (24), 102 (103); 18. Trevisa's translation of Higden's Polychronicon, lib. i. c. 41, c. 59, lib. vi. c. 29; 19. Chaucer, Man of Law's Tale; 20. Gower's Confessio Amantis, part of Book V.

S3.—SPECIMENS OF ENGLISH, Part III, ed. Skeat; from A.D. 1394-1579.

This book contains extracts from:—1. Pierce the Ploughman's Crede, ll. 153-267, 339-565, 744-765, 785-823; 2. Hoccleve's De Regimine Principum, stanzas 281-301, 598-628; 3. Lydgate, London Lickpenny, and the Storie of Thebes, bk. ii. ll. 1064-1419; 4. James I (of Scotland), the King's Quair, stanzas 152-173; 5. Pecoock's Repressor, pt. i. c. 19; pt. ii. c. 11; 6. Blind Harry's Wallace, bk. i. ll. 181-448; 7. Chevy Chase (earlier version); 8. Malory's Morte Darthur, bk. xxi. c. 3-7; 9. Caxton's History of Troy; 10. The Nut-brown Maid; 11. Dunbar, Thistle and Rose, and Poem on being desired to be a Friar; 12. Hawes, Pastime of Pleasure, c. 33; 13. G. Douglas, Prol. to Æneid, book xii; 14. Skelton, Why Come Ye Nat to Courte, ll. 287-382, 396-756; Philip Sparrow, ll. 998-1260; 15. Lord Berners, tr. of Froissart, c. 50, c. 130; 16. Tyndale, Obedience of a Christian Man; 17. More, Dialogue Concerning Heresies, bk. iii. c. 14-16; Confutation of Tyndale, bk. iii; 18. Sir T. Elyot, The Governor, bk. i. c. 17, 18; 19. Lord Surrey, tr. of Æneid, bk. ii. ll. 253-382, 570-736, and minor poems; 20. Sir T. Wiat, Three Satires, and minor poems; 21. Latimer, Sermon on the Ploughers; 22. Sir D. Lyndesay, The Monarchy, bk. iii. ll. 4499-4612, 4663-94, 4709-38; bk. iv. ll. 5450-5639; 23. N. Udall, Ralph Roister Doister, Act iii. sc. 3-5; 24. Lord Buckhurst, The Induction; 25. Ascham, The Schoolmaster, bk. i; 26. Gascoigne, The Steel Glas, ll. 418-470, 628-638, 750-893, 1010-1179; 27. Lyly, Euphues and his Ephœbus; 28. Spenser, Shepherd's Calendar, November, December.

The remaining eight publications in the Clarendon Press Series which have also been indexed are those marked C, C₂, C₃, W, W₂, P, H, and G; i.e. three books containing extracts from Chaucer, two books containing parts of Wyclif's Bible, part of Piers Plowman, Hampole's Psalter, and Gamelyn; the full titles of which are given below.

We also give all the important words occurring in CM (Chaucer, ed. Morris); and in addition to this, and for the purpose of illustration, forms are given from various texts and Dictionaries, and from the Glossaries to B (Bruce), PP (Piers Plowman), and WA (Wars of Alexander).

SYMBOLS.

In the etymological part three stops are used as symbols in connexion with the cognate forms cited, namely the comma, the semi-colon, and the colon. The comma is used to connect various spellings of a word, as well as parallel forms cited from nearly connected languages; for instance, s.v. *daunger*, the OF. forms are so connected. The semi-colon between two forms denotes that the two forms are phonetically equivalent, and that the preceding one is directly derived from, and is historically connected with the one following this symbol; for instance, s.v. *bugle*, the OF. *bugle* is the phonetic equivalent of the Lat. *buculum*, and is immediately derived therefrom. The colon between two forms denotes that the two forms are phonetically equivalent, and that the form following this symbol is an earlier, more primitive form than the one preceding, without an immediate interborrowing between the languages being asserted; for instance, s.v. *demon*, the Goth. *dōmjan* is an older form than the AS. *dēman*, but *dēman* is not borrowed from the Gothic. The abbreviation 'cp.' introduces other cognate forms, and has the same value as the symbol + in Skeat's Dictionaries.

The asterisk * at the beginning of a word denotes a theoretical form, assumed (upon scientific principles) to have formerly existed. The sign = is to be read 'a translation of.' '(n)' after Prompt., Cath. and other authorities refers to foot-notes or other notes citing the form in question.

Camel. The regular OF. equivalent for Lat. *camelum* was *chameil*. In OF. *camel* the termination *-el* is due to analogy with French forms derived from *-âlem*. See BH, § 43.
Canoun. Church Lat. *canonicus* did

not mean originally 'one on the church-roll or list,' but one who was bound to observe a certain rule of life (*canon*, *κανόν*). OF. *chanoine* is not the precise equivalent of *canonicum*, but represents a Latin type **canonium*. See Scheler's Dict. (ed. 3).

Efnenn, *v.* to make equal or even, S; see **Euenen**.

Ernes. A derivation of this word from the French has not been proved.—OF. *ernes* does not exist.

Falten. The form **falt** should be taken away from this article and placed under **Folden**. The words *falt mi tunge* mean 'my tongue gives way.' For the various meanings of this verb **folden**, see MD (ii. 68). This correction is due to the kindness of Prof. Napier.

For-swinken, *v.* to exhaust with toil; *forswonke*, *pp.*, S₃ (p. 364, l. 24).

Frayd, *pp.* frightened, S₃; **fraid**, scared, S₃; see **Afrayen**.

Habide, *v.* to abide, resist, S₂; see **A-biden**.

Hagt. Dr. F. Holthausen suggests that this word means 'danger, peril,' comparing this ME *hagt* with Icel. *hatta* which has the same meaning. Kluge connects this *hatta* with Gothic *hahan*, to hang, so that it may mean radically 'a state of being in suspense.' The word must have come into England in the form **haht*, before the assimilation of *ht* to *tt*.

Hal, *adj.* all, S₂; see **Al**.

Ham, *1 pr. s.* am, S; see **Am**.

Haxede, *pt. s.* asked, S; see **Asken**.

Here, *adv.* before, S; see **Er**.

Heremyte, *sb.* hermit, S₂; *heremites*, *pl.*, P; see **Ermite**.

Hulpen. (To be placed more to the right.)

Ich, *adj.* each, S, S₂; see **Eche**.

Ieden, *pt. pl.* went, S; see **Eode**.

Joutes. For *jutā* read *jūta*. For other cognates of this wide-spread word, see Kluge (s.v. *jauche*). See also s.v. *käse*, where Kluge remarks that Icel. *ost*, cheese, and Finnish *juusto*, cheese, are etymologically connected with G. *jauche*, and Latin *jus*.

Kepen. AS. *cēpan*, to keep, should be kept quite distinct from AS. *cýpan*, to sell. AS. *cýpan* is the phonetic representative of OTeut. *kaupjan*, whereas *cēpan*, to keep, represents an OTeut. **kōþjan*. Cp. E. *keen*, the representative of AS. *cēne*, OTeut. **kōni* (G. *kühn*). See Kluge's note in P. & B. Beiträge, viii. 538.

Mo. Add) at the end.

Note, *sb.* nut. A better explanation of *not-head* is 'with the hair of the head closely cut.' The verb to *nott* means to cut the hair close. 'Tondre, to sheer, clip, cut, powle, *nott*'; Cotgrave.

Onond, *prep.* as regards, respecting, S; *onont*, S; see **An-ent**.

Quene. It should be noted that E. *queen* is not precisely the same word as E. *quean*. For *queen* is the phonetic equivalent of AS. *cwēn*, Goth. *kwēns*, whereas *quean* represents AS. *cwēnē*, Goth. *kwēno*.

Senged, *pp.* sun-burnt, S₃ (p. 364, l. 29); see **Sengin**.

Sisour, *sb.* juror, PP; *sysour*, P; see **Asisour**.

Stok. Prof. Napier maintains that the *stokess* of the Ormulum cannot be identified with AS. *stoc*, as the gemination of the consonant persists in the Ormulum. He suggests that *stokess* means 'places,' comparing the use of *stoke* in place-names, e.g. *Wude stoke* in Chron. (Earle, p. 249). He also cites in illustration AS. *stoc-weard*, 'oppidanus,' see Leo, p. 206.

Sum (1). *Dele* 'sumere, dat., S;'

Twichand, *pres. pt.* touching, regarding, S₃ (13. 271).

Tyred, *pp.* attired, dressed, S₂; see **Atyren**.

Urpe (written **Vrpe**), *sb.* earth, S₂; see **Erthe**.

Whicche, a chest, trunk, box; **whucche**, PP; **whyche**, Prompt.; **hoche**, Prompt.—AS. *hwicce*; 'Clustella, *hwicce*;' Engl. Studien, xi. 65.

Wike, *sb. pl.* the corners of the mouth,

S (4 a. 49).—Cf. Icel. *munnvik*, pl., the corners of the mouth; see CV (s.v. *munnr*). The word *wikes* is still in use in this sense at Whitby. See Whitby Glossary (E. D. S.).

Wone, *adj.* one, S₃ (7. 97); see **Oon**.

Wyne-grapis, *sb. pl.* vine-grapes, S₃ (13. 99).
